MUHAMMAD TAHIR KHAN

Junior Web Developer

Email: tahirkhanswati544@gmail.com | Phone: 0312-9265934 | GitHub: github.com/tahirkhan8709

PROFESSIONAL SUMMARY

Motivated and detail-oriented Junior Web Developer with hands-on training from Aptech Learning, where I built a strong foundation in modern web and mobile technologies. Passionate about crafting clean, responsive, and user-friendly applications, I combine front-end creativity with back-end problem-solving to deliver complete, functional solutions. Skilled at leveraging AI-assisted development tools to accelerate learning, solve problems efficiently, and consistently deliver high-quality projects. Eager to bring my skills in HTML5, CSS3, JavaScript, Laravel, and React to a dynamic development team, while continuously learning and growing as a full-stack developer.

TECHNICAL SKILLS

Frontend

- HTML5
- CSS3
- JavaScript
- Bootstrap 5
- React

Backend

- PHP
- Laravel
- ASP.NET Core MVC
- MySQL
- SQL Server

Tools & Platforms

- Firebase
- Flutter (Mobile Apps)
- Git & GitHub
- VS Code

PROJECTS

OHD-CAMPUS — School Management System *ASP.NET Core MVC | SQL Server*

- Web-based school management system that digitizes day-to-day campus operations in one centralized platform.
- Manages students, teachers, classes, attendance, and academic records through a clean, role-based interface.
- Built with the MVC pattern and a relational SQL Server database for structured, reliable data handling.

WATCHHUB — E-Commerce Mobile App *Flutter | Riverpod | Firebase*

- Cross-platform e-commerce app for browsing and buying watches with a smooth, user-friendly shopping experience.
- Includes product listings and details, cart and checkout flow, and user authentication.
- State managed with Riverpod for clean, scalable, and testable app architecture.

HARVESTHUB — Farm-to-Customer Marketplace App *Flutter | GetX | Firebase*

- Mobile marketplace that connects farmers directly with customers, who can order fresh farm products from farmers.
- Two roles: Admin manages farmers, products, and orders; Customer browses products and places orders.
- State management implemented with GetX for reactive UI updates, routing, and dependency injection.

EDUCATION

Matriculation — Crescent Bahria Cadet College *2024*

Intermediate — Murad Memon *2026*

Web Development Certification — Aptech Learning *In Progress — 2 semesters remaining*

SOFT SKILLS

- Communication — clearly expressing ideas and collaborating effectively with peers and mentors
- Problem-Solving — analyzing challenges methodically and developing efficient, practical solutions
- Teamwork — working well with others, open to feedback, and eager to learn in a team environment
